HD-LM Door Operator

Announcing the NEW HD-LM Door Operator:
A Sound Investment in Your Building's Future!

On average, elevator doors open 1.75 million times in 10 years! Over this period of time, door operators can become inefficient and unreliable, resulting in poor operation and increased failures. If you are experiencing less than optimal door operation, the HD-LM Door Operator is the answer to improving your elevator system's performance.

The HD-LM Door Operator is designed to provide solutions to service, repair and modernization applications. The enhanced performance of the HD-LM complies with consultant's specifications. The built-in versatility of this multi-voltage door operator, along with discrete and serial interfaces, makes it ideal for all conversions.

Additional benefits include:

- Closed-loop positioning through high resolution encoder feedback
- Available on dual drive arm for center opening doors
- Improved productivity resulting in shorter wait times
- Excellent door performance, regardless of door weight, changing seasons, or weather conditions
- Standard unit ships overnight
- Quick set-up guide

If your elevator door operations are not performing properly, it is time to upgrade to the HD-LM Door Operator. The result will be smoother, faster and more consistent operation with fewer shutdowns and callbacks. Contact your local Vertical Express sales representative or call (866) 448-3789.
