POWDER COAT PAINT

POWDER COAT PAINT

It's tough. It looks great. And it lasts a long time. Vertical Express' Powder Coat Paint is durable, scratch-resistant and comes in a wide array of color choices. Powder offers superior protection with an expected lifetime in excess of 30 years.

THE SUSTAINABLE CHOICE.

Vertical Express is committed to delivering more sustainable products to our customers. That's why we now offer powder coat paint for our entrances and cabs.

Powder coat paint is free of volatile organic compounds (VOCs), has no solvents and creates less waste than standard paint applications. Powder coat paint can be easily recycled and consumes less energy in the curation process.

ENVIRONMENTAL ADVANTAGES OF POWDER COAT PAINT.

- Contains no solvents, meaning reduced fire risk, reduced risk in application and disposal of waste
- Emits no VOCs
- Little to no waste during the manufacturing process, as overspray can be recycled and reused
- Reduced health risks for operators, since there are fewer hazardous materials and powder is easily washed off
- Raw material research has produced powders that can be cured at lower temperatures, meaning lower energy consumption
- Thermosetting powder coatings often have higher chemical/physical resistance, thus reducing the cost and fuel consumption involved in transportation and storage

Our Powder Coat Collection comes in 12 standard colors. Don't see a color that matches your décor? Provide us with a paint sample and we can mix most colors to your specifications. For additional information, please contact Vertical Express at 866.448.3789.

Note: Actual paint samples shown. Since all color chips are affected by age, light, heat and coating processes, paint color chips may vary slightly in color from actual paint.
