

The School

Reliable. **Accessible.** Intelligent. **Efficient.** Sustainable. **Practical.** Dependable

Designed to provide access, “The School” is the correct answer when it comes to allowing students to easily maneuver throughout the building. Vertical Express offers non-proprietary hydraulic packages featuring the I-CON controller. An on-board owner’s service tool provides all the diagnostic equipment needed for maintaining and trouble-shooting the system. Vertical Express elevators are in full compliance with U.S. and Canadian ADA, Fire Service and ASME A17.1 codes.
